### The Homestay Experience

Staying with a local homestay host allows students to learn more about everyday life in the UK and gives them a unique opportunity to speak English in real-life situations. Mealtimes encourage students to interact with their hosts and help them feel more comfortable using English in everyday life

Most hosts live within a 20 minute walk from the school.

At least 3 nights a week students come back to school for an evening event. This is the perfect opportunity to use the English learnt in a social setting. Popular events include the beacholympics, discos and music/drama shows.

### Full day and half day excursions

Each week we take students on a half day excursion to a local place of interest, and a full day Saturday excursion to great cities like Winchester, Oxford, Bath and London. We help them to get the most from their trip by preparing them in advance with observation tasks or lively photo challenges.
